

INVEST IN THE FUTURE

POWERDUCTION 110LG COMPACT

Mobile induction heating power source,
delivering 11 kW of power in a compact format.

087637

INSTANTANEOUS HEATING POWER OF 11 KW,
for releasing seized parts or straightening
workpieces on a matter of seconds.

MULTIPLE APPLICATIONS

Ideal for use in the agricultural, construction,
industrial and HGV sectors for de-seizing,
straightening, brazing or shrink-fitting.

ELIMINATING THE NEED FOR FLAME

Provides localised heating with zero flame
for improved user comfort, zero CO₂
emissions, and maximum safety.

 **11 000 W**

 **400 V**

HUNDREDS OF INDUCTORS

There is a suitable inductor for all
applications, whatever the shape of the
workpiece.

COMPACT FOR ON-SITE USE

Easy to move around for optimum mobility
and immediate efficiency when working
directly on-site.
