

3M Personal Protective Equipment

Maintenance Free Particulate Respirators

New 3M™ Advanced Electret Filter Technology

Think 3M
think respiratory protection

3M pioneered Maintenance Free Respirators 25 years ago and have been improving the design ever since

Our new range of respirators have improved performance and conform to the new EN149:2001 Standard.

3M respirators have:

- Enhanced fit to the face
- Less build-up of heat and moisture
- Lower breathing resistance.
