

FFP2/KN95 Particle Mask

Product Specifications

Ultra-fine fibre electrostatic fabric and PP sub bonded non-woven cloth are used to form 4 filtration layers, which can filter harmful substances effectively.

The three-dimensional shape is designed to fit tightly and offer increased breathing comfort.

Fitting instructions

Scope of applications

Suitable for the protection against harmful particles such as dust, PM2.5 particulate and influenza bacteria droplets.

KN95/FFP2 standard is designed to filter out at least 94% of airborne particles.

Notes

- Wash hands before fitting the mask.
- To ensure good hygiene, avoid touching the inner side with your hands
- Once fitted, check for a tight seal around nose and chin
- Replace the mask if visible dust occurs or breathing resistance increases
- This mask cannot be washed
- Unused masks should be stored in a clean, dust free environment
